For years, the team of FAAAT think & do tank has served as a global platform for the debate and elaboration of innovative proposals to upgrade Cannabis policies and practices. Our work at the WHO level has been a landmark, resulting in the Treaty descheduling to happen soon. Now we address another side of international policies, that will have a much more direct impact locally.

This is the right time to show up! Things are changing rapidly (may it be in Austria, USA, Netherlands, Switzerland, Germany, UK or Colombia...) and the future is being built now. In parallel, a brand new international context (UNGASS2016, WHO Cannabis Descheduling, Sustainable Development Goals, CND2019) eases the reform of Cannabis policies.
