Sharing a booth at the **International Cannabis Policy Conference 2018**

UN Sustainable Development Goals | Special Event | #CannabiSDG
December 7-9, 2018 | Vienna, Austria. Presented by **FAAAT & ICACO**

Sharing an exhibition space provides your company with an **opportunity to be visible** at the heart of this key event while saving on logistics. Do not miss the opportunity to have a unique presence in this space where diplomats, policymakers, and NGOs will meet with **key players** who innovate, create, grow, and achieve every day new levels of success.

To **stay sustainable, compliant, and steps ahead of your competitors**, and keep updated on the best standards and practices of the field, getting embedded in the world's **most active and influential cannabis markets, media, investment and policy leaders** becomes imperative.

For years, the team of FAAAT think & do tank has served as a global platform for the debate and elaboration of innovative proposals to upgrade Cannabis policies and practices. Our work at the WHO level has been a landmark, resulting in the only Cannabis critical review, scientific assessment since the 1935 prohibitive measures went into effect. Now we address another side of international policies, that will have a much more direct impact locally.

Things are changing rapidly (may it be in Austria, USA, Netherlands, Switzerland, Germany, UK or Colombia...) and the future is being built now. In parallel, a brand new international context (UNGASS2016, WHO Cannabis scientific review, Sustainable Development Goals, CND2019) eases the reform of Cannabis policies.

Thank you for being there to show up your support!
